# Understanding the Psychiatric Security Review Board: Community Supervision Best Practices

*Session Speakers #5*

*March, 2018*

## **Summary**

Participants will receive an Oregon forensic systems overview, including history around the insanity defense for adults and youth (GEI/REI), how a defendant asserts the insanity defense during criminal proceedings, the creation of the PSRB and its evolution since the late 1970s and typical progression of clients as it relates to PSRB supervision. Finally, a lengthy presentation on conditional release will be provided. This class will include a lecture and a panel that will discuss their own experiences with PSRB – from a patient perspective to the practitioner perspective and allow for an ample question and answer session.

## **Learning Objectives**

- Both Oregon's insanity defenses, PSRB mission and operations;
- Nuts and Bolts of processing a GEI/REI case through the courts;
- What it means to be under PSRB supervision both in OSH and on conditional release; and
- How attorneys, judges and mental health providers can best support a defendant and victim through the life of a PSRB case from arrest to end of supervision.
