Forensic Peer Best Practices for people with Substance Use Disorder

Sean Syrek, BA, BS, PSS, PRC
Forensic Peer Specialist and Peer Supervisor
Mental Health Association of Oregon

Session THREE - 8:00 - 9:30 AM

The Oregon Regional Facilitation Center and the Oregon Health Authority have released a new text, "Substance Use Disorder Forensic Peer 10 Best Practices Curriculum." An author and editor of the text will review the new curriculum. Forensic peer services are a subspecialty of substance use disorder peer services. This best practice analysis is specifically designed for training purposes. Competencies with specific KSA's (Knowledge, Skills, and Attitudes) are described in checkboxes for classroom participant self-assessment.

Learning Objectives

- Hear the experience of peer support for addiction and mental illness in a forensic environment.
- Gain an overview of the 10 best practices of forensic peer support, and a better understanding of several systems best practices.
- Learn how persons with substance abuse disorders involved in the criminal justice system are measurably different than their free counterparts.

Eric Martin, MAC, CADC III, CRM, CPS,
Past President & Director Emeritus of
ACCBO of Oregon

This session will be recorded and available for online viewing by attendees of the conference.

Handouts for this presentation will be made available on the conference website - www.olmhc.org

To receive 1.25 credits for **CLINICAL SOCIAL WORK PRACTICE**, be sure to sign in and out of the session on the clipboard at the back of the room.
